

James Gorbett admitted to Rocky River Gardens on January 17, 2024 under the care of Khaleel Deeb. During the course of the stay, Occupational Therapy, and Physical Therapy were initiated to efficiently and effectively identify James Gorbett's unique needs and tailor specialized treatment plans to successfully transition to the next level of care.

The therapy team provided skilled interventions to address the adaptation, compensation, and restoration potential of James Gorbett and coordinated with the interdisciplinary team to ensure appropriate clinical care areas were addressed. On February 28, 2024, James Gorbett successfully discharged to long term care.

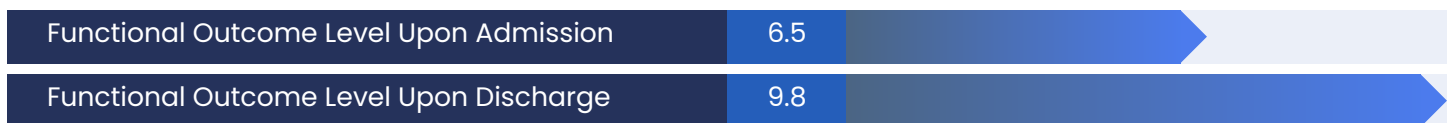

The rehabilitation length of stay was 43 days.

James stated he enjoys therapy and good hard work. He is now enjoying going outside, visiting with staff or friends and participate in activities independently.

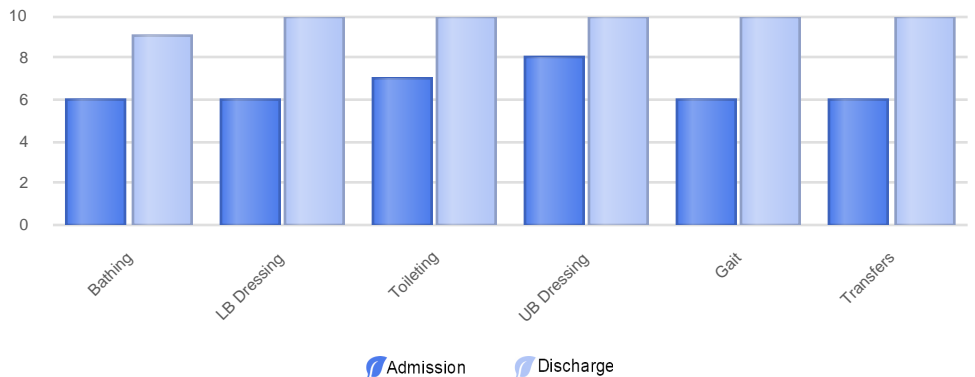

Overall Composite Score Outcomes

Rehabilitation outcomes are assessed on a 10-point rating scale. 10 is the most independent level of ability, and 1 is the most dependent level of ability. A score of 0 may represent an inability to perform the task. The Model 10 Composite Score represents James Gorbett's overall outcomes.

Model 10 Composite Score Overview

Rehabilitation Outcomes Details

Thank you for the opportunity to care for James Gorbett.
